Fig. 3a
(Detail I aus Fig. 2)

A technical line drawing of a cylindrical component. On the left, a circular cross-section is shown with radial lines and a central hole, labeled with the number 1. A vertical line extends from this cross-section through the center of the cylinder. The cylinder itself has several horizontal lines indicating its length and features a flared end on the right side. This flared end contains three circular holes, with the top one labeled with the number 37 and the bottom two labeled with the number 29.
